

# MONTANA

BOARD OF INVESTMENTS

**TO:** Loan Program Participants  
**FROM:** Board of Investments INTERCAP & In-State Loan Programs  
**DATE:** June 6, 2022  
**RE:** Application Fillable Forms Sign-in Change

Dear INTERCAP/In-State Borrowers:

The State of Montana is implementing Okta Single Sign On (SSO) which allows citizens to have one login ID and password to access eGovernment services (replacing ePass). In preparation for this conversion please go to <https://login.mt.gov> , scroll to the bottom and select “Sign Up” to create a State of Montana Okta account. Login verification will require multi-factor authentication in the form of a one-time code being sent to a user via email.

The conversion will take place the week of June 20<sup>th</sup>, and going forward Okta SSO will be required to save all future form submissions. This will include AccessGov, which BOI uses for its fillable on-line applications and forms.

In addition, after the change to Okta, users will no longer be able to access form submissions saved or submitted prior to June 20<sup>th</sup>. Please download and save any forms you may need before June 20<sup>th</sup>. Should you need a form after June 20<sup>th</sup>, please call 406.444.0001.

Thank you for your continued collaboration with the Board of Investments’ loan programs.
