# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2025

These financial statements present only the activity of the Short-Term Investment Pool (STIP) as managed by the Board of Investments (the Board). STIP financial statements are included in the Board's Unified Investment Program (UIP) financial statements, which are audited by the Montana Legislative Auditor. These stand-alone STIP financial statements are for informational purposes only and are not separately audited. The Board's audited annual financial information is available from the Board at 2401 Colonial Drive, 3<sup>rd</sup> Floor, PO Box 200126, Helena, MT 59620-0126 or by calling 406-444-0001. The Board's information can also be found on the Board's website at http://investmentmt.com/.

# 1. DESCRIPTION OF FUNDS AND SIGNIFICANT ACCOUNTING POLICIES

# **DESCRIPTION OF FUNDS**

The Board created STIP to allow qualifying funds, per sections 17-6-201, 202 and 204, MCA to participate in a diversified pool. By statute, local governments entities can voluntarily participate in the STIP.

# BASIS OF ACCOUNTING

The accompanying financial statements are reported using the economic resources measurement focus and the accrual basis of accounting and have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as established by the Governmental Accounting Standards Board (GASB).

#### CASH AND CASH EQUIVALENTS HELD WITHIN POOLS

Cash and cash equivalents generally are short-term, highly liquid investments with maturities of three months or less at time of purchase. STIP holds cash and cash equivalents measured at cost.

# VALUATION OF INVESTMENTS

Investments reported at fair value are on a trade date basis. Quoted market prices, when available, have been used to value investments. The fair values for securities that have no quoted market price represent estimated fair value. Fair value measurements are reviewed monthly, and third-party valuations are reviewed for reasonableness and compliance with approved price source authorization policy. Additional information on how the Board reports fair value measurements can be found in Note 5 - Fair Value Measurement.

As disclosed in Note 5 – Fair Value Measurement, \$65 million of investments are reported at cost. These include bonds authorized in the Municipal Finance Consolidation Act of 1983 (INTERCAP Bonds).

# **PREPAID EXPENSES**

Certain payments to vendors reflect investment costs applicable to future accounting periods and are recorded as prepaid expenses.

# CAPITAL AND RIGHT-TO-USE ASSETS

Capital and right-to-use asset contracts which meet certain conditions and are considered noncancelable with an amortized cost greater than \$100 thousand and greater than one year in term are included on the Statement of Fiduciary Net Position as Capital Assets, Net. Such assets are amortized on a straight-line basis over the shorter of the life of the contract or the useful life of the underlying asset(s). The assets are reported net of accumulated amortization. The related subscription liabilities are included within Subscription Liabilities on the Statement of Fiduciary Net Position and are measured at the present value of expected payments over the contract terms. The amortization expense is a component of investment costs. Please refer to Note 6 – Capital and Right-to-Use Assets for more information.

# **REVENUE RECOGNITION**

Unrealized gains and losses are included as a component of investment income in the Statement of Changes in Fiduciary Net Position. Unrealized gains and losses are computed based on changes in the fair value of investments held from the beginning of the year, but unsold at the fiscal year-end. The net change in fair value of investments also consists of the realized gains or losses. Interest income is recognized when earned. Dividend income is recorded on the ex-dividend date.

#### INVESTMENT COSTS

The State Legislature sets management fees the Board charges. The maximum fee is set at the aggregate level at the beginning of each fiscal year. During the fiscal year, STIP was allocated \$719 thousand in Board fees. The STIP investment fee ratio was 0.01%.

# **SECURITIES LENDING**

The collateral received under securities lending agreements where STIP can spend, pledge, or sell collateral without borrower default is included in the Statement of Fiduciary Net Position. Liabilities resulting from these transactions are also included in the Statement of Fiduciary Net Position. Costs associated with the securities lending transactions, including broker commissions, and lending fees paid to custodians are reported as components of investment expenses in the Statement of Changes in Fiduciary Net Position. For further detail, please refer to Note 3 - Securities Lending

# PURCHASES AND SALES BY PARTICIPANTS AND INCOME DISTRIBUTIONS

Purchases and sales by participants are recorded when received or paid. STIP participants receive

monthly income distributions. STIP distributable income is total net investment earnings less the net increase (decrease) on the fair value of investments not attributable to amortization.

# **REGULATORY OVERSIGHT**

The Board was created by the State Legislature to manage the UIP established by the State Constitution. The Board is not registered with the U.S. Securities and Exchange Commission as an investment company.

# **POOL PARTICIPANT UNITS**

Pool units are purchased and sold in the same manner as individuals investing in mutual funds. The STIP participants purchase and sell units at \$1 per unit, at the participant's discretion. Individual investments in the pools are not specifically identified to the respective participants. Please refer to Note 8 – STIP Reserve for further detail.

# 2. INVESTMENT RISK DISCLOSURES

# **CUSTODIAL CREDIT RISK**

Custodial credit risk is the risk that, in the event of the failure of the counterparty to a transaction, the Board will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. Per policy, the Board's custodial bank must be rated at least at the sixth highest investment grade rating by at least two Nationally Recognized Statistical Rating Organizations (NRSRO) annually.

As of June 30, all the public securities were registered in the nominee's name for the Montana Board of Investments and held in the possession of the Board's custodial bank. Demand deposit accounts held at non-custodial banks were purchased and recorded in the Board's name. Commingled fund investments are registered in the name of the Montana Board of Investments. Therefore, the Board is not subject to custodial credit risk.

# CONCENTRATION OF CREDIT RISK

Concentration of credit risk is the risk of loss attributable to the magnitude of any single investment per issuer name. Investments explicitly guaranteed by the U.S. Government are excluded from the concentration of credit risk requirement. The concentration of credit risk is addressed within the Investment Policy Statements (IPSs) as set by the Board. Please refer to Note 4 – Summary of Investment Policy – Legal and Contractual Provisions for further detail.

#### **CREDIT RISK**

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. Except for U.S. Government securities, income instruments have credit risk as measured by NRSRO ratings. Credit risk is contemplated for each individual portfolio in the IPS. Credit risk is

managed by constraining portfolio purchases around investment grade NRSRO ratings as appropriate. The U.S. Government guarantees its securities directly or indirectly. Obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government are not considered to have credit risk and do not require disclosure of credit risk. Please refer to Note 4 – Summary of Investment Policy – Legal and Contractual Provisions for further detail.

As a matter of STIP investment policy, the Board's fixed income investment staff can only purchase securities from a pre-approved "Approved Issuer" list. By STIP policy, permitted money market investments include only SEC registered 2a-7 Institutional Money Market Funds that are considered "US Treasury" or "US Government" money market mutual funds according to the SEC regulations or short-term investment vehicle available through the custodial bank. As of June 30, all the STIP money market investments were in US Governmental Money Markets and \$424.4 million was held on deposit in short-term investment vehicles. NRSRO provides the credit ratings presented in the following table as of June 30 with all amounts in thousands:

STIP CASH EQUIVALENT CREDIT QUALITY RATINGS							
Cash Equivalent Investment Type		otal Cash quivalents	Credit Quality <u>Rating</u>				
Agency or Government Related Asset Backed Commercial Paper Corporate: Commercial Paper Interest Bearing Demand Deposit Accounts Total Cash Equivalents	\$	61,708 2,949,872 849,964 424,424 4,285,968	A-1+ A-1+ A-1+ A-1+				

# **INTEREST RATE RISK**

STIP investments at fair value are categorized by investment type to disclose interest rate and credit risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of a debt investment. The Board uses effective duration as a measure of interest rate risk for all fixed income portfolios. Please refer to Note 4 – Summary of Investment Policy – Legal and Contractual Provisions for further detail.

Credit risk reflects the weighted security quality rating by investment type as of the report date. Although the STIP investments have been rated by investment security type, STIP, as an external investment pool, has not been rated. STIP has \$65 million in investments reported at cost that are not rated. STIP interest rate risk is determined using the weighted average maturity (WAM) method. The WAM measure expresses investment time horizons – the time when investments are due or reset and payable in days, months, or years – weighted to reflect the dollar size of the individual investments within an investment type. Inclusive of cash and cash equivalents, the WAM

averages 58 days for the portfolio. STIP investments at fair value are categorized to disclose credit risk and WAM as of June 30 on the following table (amounts in thousands):

STIP CREDIT QUALITY RATINGS AND WEIGHTED AVERAGE MATURITY								
Security Investment Type	Total Fixed Income Investments at Fair Value	Credit Quality <u>Rating</u>	WAM <u>(Days)</u>					
Treasuries Agency or Government Related Corporate:	\$ 1,877,84 350,67		85 296					
Commercial Paper Notes	401,60 882,99	00 A-1+	186 319					
Certificates of Deposit  Total STIP Fixed Income Investments at Fair Value	1,159,89 \$ 4,673,00		129					

Based on their short weighted average maturity and the relative immaterial difference from their cost to fair value as of June 30, the Board deemed the cash equivalents to have little discernible interest rate risk.

# 3. SECURITIES LENDING

The Board is authorized by law to lend its securities and has contracted with the custodial bank to lend the Board's securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. On any day, including June 30, the markets may move in a positive or negative direction resulting in under or over collateralization. The custodial bank compensates for market movement by recalculating on the following business day to meet the collateralization requirements. The Board and the custodial bank split the earnings 85% and 15%, respectively, on securities lending activities. The Board retains all rights and risks of ownership during the loan period. The custodial bank indemnifies the Board's credit risk exposure to the borrowers. The custodial bank cannot sell collateral securities unless the borrower defaults.

During the fiscal year, the custodial bank loaned the Board's public securities and received as collateral the following instruments:

- Cash (U.S. and foreign currency),
- Securities issued or guaranteed by the United States government or its agencies or Instrumentalities,
- Canadian provincial debt,
- · All other sovereign debt,
- Convertible bonds,
- U.S. and non-U.S. equities (which shall include (i) equity securities in the form of exchange-

traded funds ("ETFs") and, for the avoidance of doubt, shall include, but not be limited to, ETFs of the custodial bank or other custodial bank affiliates and (ii) American Depositary Receipts and Global Depositary Receipts),

- Covered bonds,
- Preferred securities,
- Certificates of Deposit,
- Money market instruments,
- Asset-backed securities,
- Asset-backed commercial paper,
- Commercial paper,
- · Collateralized mortgage obligations,
- Mortgage-backed securities,
- Supra-nationals,
- Irrevocable bank letters of credit issued by a person other than the borrower, or an affiliate of
  the borrower may be accepted as collateral, if the custodial bank has determined that it is
  appropriate to accept such letters of credit as collateral under the securities lending programs
  it administers,
- Assets permissible under Rule 15c3-3 under the Exchange Act of 1934, and
- Such other collateral as the parties may agree to in writing.

The Board has an established schedule with the custodial bank that identifies the minimum credit rating and margin requirements for each instrument:

COLLATERAL TYPE	MINIMUM CREDIT RATING	MARGIN REQUIREMENT
US Treasuries, including Treasury Inflation Priced Securities		102%
US Federal Agency Debt, including agency mortgage-backed securities		102%
Municipal Bonds	A-/A3	105%
Canadian Provincial & Australian Semi-Regional Debt	A-/A3	105%
Asset-Backed Securities	AA-Aa3	110-115%
Collateralized Mortgage-Backed Securities	AA-Aa3	110-115%
Commercial Mortgage-Backed Securities	AA-Aa3	110-115%
Supranational Debt	AAA/Aaa	102%
Sovereign Debt	AA-/Aa3	102%
Sovereign Debt	A-/A3	105%
Commercial Paper, Certificates of Deposit, Banker's Acceptances and		
Time Deposits	A1/P1	105%
Corporate Debt	AA-/Aa3	102-115%
Corporate Debt	BBB-/Baa3	102-115%
Convertible Bonds (convertible on call against loans of underlying		
stock, only) Matched/Hedged	No Floor	105%
Convertible Bonds (US issuers only) Outright	No Floor	110-115%
Equities (generally traded on well-established exchanges)		108%-110%

The cash collateral received for each loan was invested in a highly-liquid, separately managed portfolio. The Board and the borrowers maintain the right to terminate all securities lending transactions on notice. Because the securities lending transactions were terminable at will, their duration did not generally match the duration of the investments made with the cash collateral received from the borrower. The portfolio had a weighted average duration of 21 days and a weighted average final maturity of 103 days.

The security on loan and pledged collateral is disclosed in the following table as of June 30, with amounts in thousands except for percentages.

	SECURITIES ON LOAN AND PLEDGED COLLATERAL							
	Fair Value Collateral On Loan Cash		Collateral Securities	Collateral <u>Total</u>	% of <u>Fair Value</u>			
Short Term Investment Pool (STIP)	\$ 1,437,393	\$ 350,784	\$ 1,146,518	\$ 1,497,302	104%			

For the year ended June 30, STIP had net securities lending income of \$2.3 million, with gross securities lending income of \$18.0 million and associated expenses of \$15.7 million.

# 4. SUMMARY OF INVESTMENT POLICY – LEGAL AND CONTRACTUAL PROVISIONS

The Board manages the Investment Program pursuant to the "Prudent Expert Principle" mandated by state law, which requires an investment manager to:

- "(a) Discharge the duties with the care, skill, prudence, and diligence, under the circumstances then prevailing, that a prudent person acting in a like capacity with the same resources and familiar with like matters exercises in the conduct of an enterprise of a like character with like aims.
- (b) Diversify the holdings of each fund within the UIP to minimize the risk of loss and to maximize the rate of return unless, under the circumstances, it is clearly prudent not to do so, and
- (c) Discharge the duties solely in the interest of and for the benefit of the funds forming the UIP."

### ALLOWED INVESTMENTS

Permissible investments are discussed in Note 1 – Description of Funds and Significant Accounting Policies and Note 3 – Securities Lending. The Board approves all Investment Policy Statements (IPSs), which provides board staff with a broad strategic framework under which the investments are managed. The IPSs also reflect the Board approved asset allocation ranges.

By statute, local government entities can voluntarily invest in STIP.

The STIP IPS limits concentration of credit risk exposure by limiting exposure to individual issuers by asset class as follows (as a percentage of STIP Units Value at purchase):

- 3% to in any issuer for any permitted investments excluding U.S. Treasury and U.S. agency securities and repurchase agreements with a financial institution,
- 30% to any single issuer for U.S. agency securities,
- 5% to any single SEC registered 2a-7 fund for money market funds or FDIC-insured deposits,
- 5% to any single primary dealer or financial institution for repurchase agreements,
- 3% to any Montana domiciled bank for collateralized demand deposit accounts,
- 5% to the custodial bank for interest-bearing demand deposit accounts.

STIP invests primarily in short-term, high quality, fixed income securities with a maximum maturity of 397 days or less. Variable rate securities shall have a maximum maturity of 2 years. STIP shall maintain a dollar-weighted average portfolio maturity of 120 days or less. STIP is managed to preserve principal while providing daily liquidity for state agency and local government participants.

Per the STIP IPS, "The STIP portfolio will minimize interest rate risk by:

- Structuring the investment portfolio so securities mature to meet cash requirements for ongoing operations thereby normally avoiding the need to sell securities on the open market prior to maturity,
- 2) Maintaining a WAM of 120 days or less (for this purpose, the date to the next coupon reset date will be used for all floating or variable rate securities), and
- 3) STIP will maintain a reserve account."

STIP may hold fixed and variable rate securities. Interest payments on variable securities are based on an underlying reference rate, for example, Secured Overnight Financing Rate (SOFR).

# 5. FAIR VALUE MEASUREMENT

The Board categorizes its fair value measurements within the fair value hierarchy established by GAAP as follows:

**Level 1** - Quoted prices for identical assets or liabilities in active markets that the Board can access as of June 30.

**Level 2** - Prices are determined using inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly. These inputs can include quoted prices for similar assets or liabilities in active or inactive markets, or market-corroborated inputs.

**Level 3** - Prices are determined using unobservable inputs, which generally results in the Board using the best information available and may include the Board's own data.

#### FAIR VALUE LEVEL

Fixed income investments classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Fixed income investments classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Investments measured at cost are included to account for all investments. These investments include cash equivalents and INTERCAP bonds.

STIP has the following value measurements as of June 30, with amounts in thousands:

	AIR VALUE			Fair	Value N	/leasurements L	Ising	
			Activ Ider	ted Prices in re Markets for ntical Assets (Level 1)	Obse	nificant Other ervable Inputs (Level 2)	Unobs	ificant ervable /el 3)
Investments by Fair Value Level Fixed Income Investments:								
Treasuries	\$	1,877,840	\$	1,877,840	\$	-	\$	_
Agency or Government Related	•	350,679	·	-	·	350,679	·	-
Corporate:								
Commercial Paper		401,605		-		401,605		-
Notes		882,990		-		882,990		-
Certificates of Deposit		1,159,893				1,159,893		-
Total Investments by Fair Value Level		4,673,007	\$	1,877,840	\$	2,795,167	\$	-
Investments at Cost								
Cash and Cash Equivalents		4,285,968						
INTERCAP Bonds		65,000						
Total Investments not Categorized		4,350,968						
Total Investments	\$	9,023,975						

# 6. CAPITAL AND RIGHT-TO-USE ASSETS

Capital and right-to-use assets include subscription-based information technology arrangements (SBITA) assets. SBITAs consist of agreements that grant the Board use of property in exchange for payments over a specified period. The Board's SBITA payables are associated with the subscriptions of underlying IT assets provided by the SBITA vendors. All expenses related to SBITA agreements are allocated to individual pools based on proportionate use. Amortization expense is included as Investment Costs on the Statement of Changes in Fiduciary Net Position.

SBITA contracts are recorded as right-to-use assets and amortized using the effective interest rate method (amortizes at the same rate as the liability reduction). Interest expense is recognized ratably over the contract term. Capitalized implementation costs associated with right-to-use assets are recorded at cost and amortized using the straight-line method over the contract term or estimated useful life of the asset. Capital Asset account balances table are below with amounts in thousands:

	•	inning ances	Inc	reases	De	creases	nding alance
Cost:							
Capital Assets Being Depreciated and Amortized:							
Right-To-Use Subscriptions	\$	387	\$	-	\$	(387)	\$ -
Total Capital Assets Being Depreciated		387		-		(387)	-
Less Accumulated Depreciation and Amortization For:							
Right-To-Use Subscriptions		(290)		(97)	\$	387	_
Total Accumulated Depreciation and Amortization		(290)		(97)		387	-
Capital Assets, Net	\$	97	\$	(97)	\$		\$ 

### 7. BOND AND LOAN GUARANTEES

As of June 30, the Board had provided loan guarantees from the Coal Severance Tax Trust Fund and the Treasurer's Cash Fund to the Municipal Finance Consolidation Act of 1983 program known as INTERCAP. Bond issues from INTERCAP totaled \$65 million.

STIP, Trust Funds Investment Pool (TFIP), and the Coal Severance Tax Trust Fund provided loan guarantees for the Montana Facility Finance Authority (MFFA) amounting to \$96.5 million. The amounts represent the potential liability of the Fund and guarantees are in effect for one year.

MFFA is a discretely presented component unit of the State of Montana. MFFA guarantee requests are submitted to the Board for review and approval. The Board's participation, either duration or any other consideration, to either purchase bonds or loans or to lend money for deposit into MFFA's statutorily allowed capital reserve account is explicitly limited by statute which requires the Board to act prudently. The bond and loan guarantee requests from MFFA pertain to bonds issued by MFFA with a term of up to 40 years. The Board receives a credit enhancement fee at MFFA bond closing based on the term of the financing, the type of bond, the rating of the borrower, and the type of reserve fund. The Board and MFFA have entered into an agreement detailing repayment to the Board.

The following schedule summarizes the bond and loan guarantee activity during the fiscal year with amounts in thousands:

BOND AND LOAN GUARANTEE ACTIVITY								
		eginning Balance		<u>Additions</u>	<u>R</u>	<u>eductions</u>	<u>Endi</u>	ng Balance
INTERCAP	\$	75,207	\$	71,793	\$	(82,000)	\$	65,000
MFFA	\$	103,963	\$	-	\$	(7,460)	\$	96,503

# 8. STIP RESERVE

The reserve account may be used to offset losses within the STIP portfolio. The following table details STIP Reserve activity for the fiscal year ended June 30, with amounts in thousands:

STIP RESERVE ACTIVITY	
Beginning STIP Reserve	\$ 86,425
Additions Investment Earnings:	
Net Increase (Decrease) on Fair Value of Investments	4,159
Interest Income	336
Other Investment Income	428
Transfer of STIP Income	16,189
Total Investment Earnings	 21,112
Total STIP Reserve Activity	21,112
Ending STIP Reserve	\$ 107,537

# 9. SUBSEQUENT EVENTS

Since June 30, the Board extended a loan guarantee for an additional MMFA loan for \$15 million.

This document is electronically available to the public. No expense was incurred for printing or distribution.
